About the Mansa Musa Project

The goal of the program is to identify youth who are going to have a turbulent transition to adulthood and offer a positive support system to avoid the pitfalls that can derail their lives. The Mansa Musa Project offers a innovative approach to providing resources and positive outlets for

each young adult enrolled in the program. The focus is slightly different at each level, but the goal remains the same: To empower the young person to make positive changes in one's life.

We believe that together we can make a significant difference in the lives of children in need of mentorship and guidance. Your participation and support will contribute directly to the success of this event and, more importantly, to the positive impact on the lives of the children in our community.
